

IN THE CLAIMS

Please make the following claim substitutions:

- 1 1. (Original) An apparatus comprising:
2 an inflatable body having an inner surface and an outer surface;
3 a plurality of support structures connecting said inner surface and said
4 outer surface; and
5 at least a first antenna element disposed on said outer surface.
- 1 2. (Original) The apparatus of claim 1 wherein said inner surface
2 comprises the surface of a dirigible.
- 1 3. (Original) The apparatus of claim 1 wherein said plurality of support
2 structures comprises a plurality of tubes extending from said inner surface to said
3 outer surface.
- 1 4. (Original) The apparatus of claim 3 wherein at least one of said
2 plurality of tubes comprises a coaxial transmission line adapted to transmit
3 signals to and from said at least a first antenna element.
- 4 5. (Original) The apparatus of claim 1 wherein said at least a first
5 antenna element is one antenna element in a plurality of antenna elements
6 comprising a phased array antenna.
- 1 6. - 14. (Canceled)
